Work

Raytheon UK
Cyber & Software Academy Engineer
September 2022 - Present (~2 years)
Starting on an introductory academy to rapidly upskill in agile software development practices quickly embraced into developing a wide range of software tools including being a technical lead on an internal project. Although primarily software development also tackled things such as testing, compliance and architecture. Alongside plenty of work to do knowledge sharing internally.

UK Atomic Energy Authority
Business System Database Administrator
September 2020 - September 2021 (1 year 1 month)
Culham, England, United Kingdom
A sandwich placement where I was responsible for helping manage and support business processes through an ERP system. This included: moderate to advanced reporting, working with upgrades, new module installation, and system configurations. Also conducted a thorough internal compliance and general security audit, and helped with general security procedures.

EDUCATION
University of South Wales — **Bachelor's Degree, Computer Security** w/Sandwich (2018 - 2022)
Cardiff High School — **GCSE and A-levels** (including GCSE Math, Welsh and English)

Experience
Enactus USW— **Member and President**
Cardiff Youth Council — **vice-chair**

Certifications
- **AWS** Solutions Architect Associate [Nov2024-Nov2027]
- **AWS** Certified Cloud Practitioner[Feb2023-Nov2027]
- Microsoft Certified: **Azure** Fundamentals
- Microsoft Certified: **Azure AI** Fundamentals
- **AWS** Partner: Accreditation(Technical)
